Thanks Sam. This looks good. In reviewing my notes from last Fall on the Santa Monica Bay governance issue, you were going to convene a discussion with the state about the amount and types of resources (i.e. space, personnel,) they will invest over the next ~20 years to guide the Management Conference through developing a new structure to leverage the relative strengths of the various NEP partnerships. Is this what you were referring to during our call today, as a follow up action with the state?

Bernice
